

## Environmental Policy

On Time Septic Services provides on site repair, service and maintenance of wastewater treatment systems

On Time Septic Services seeks to improve business performance and sustainability by recognising and valuing the interdependence of environmental, social and economic considerations in its decision making and balancing these with the needs of its stakeholders.

In the context of this, On Time Septic Services is committed to achieve a high standard of environmental care by complying with current legislation and seeking continual improvement in performance by taking account of evolving scientific knowledge and community expectations.

Specifically, it is On Time Septic Services' policy to:

- comply with all applicable laws, regulations and standards; uphold the spirit of the law; and where laws do not adequately protect the environment, apply standards that prevent or minimise adverse environmental impacts resulting from its operations, products and services;
- seek to use energy, fresh water and other natural resources more efficiently where economically viable, and promote and improve the environmental credentials of On Time Septic Services' products, services and their application;
- communicate with government and the community on environmental issues, and contribute to the development of policies, legislation and regulations that may affect On Time Septic Services;
- ensure that its employees and suppliers of goods and services are informed about this policy and aware of their environmental responsibilities in relation to the On Time Septic Services business;
- ensure that it has management systems to identify, control and monitor environmental risks arising from its operations; and using these systems, establish, review and document environmental objectives and targets to facilitate continual improvement.
